PROFESSIONAL SUMMARY

Power BI Developer with 3 years of experience designing data models, automated ETL pipelines, and executive KPI dashboards across sales, operations, and finance. Expert in DAX, advanced SQL, Python ETL, and row-level security, with a Finance MBA bridging technical delivery and business impact. Proven track record cutting report load times by 30%, automating 50,000 daily records with full error handling, and delivering production-grade reporting solutions.

TECHNICAL SKILLS

BI and Visualization: Power BI Desktop, Power BI Service, DAX, Power Query (M), Paginated Reports, Row-Level Security (RLS), Composite Models, Incremental Refresh, Microsoft Fabric

Databases and SQL: Advanced SQL, PostgreSQL, MySQL, Snowflake, CTEs, Window Functions, Stored Procedures, Indexing, Query Optimization, Performance Tuning

Data Engineering: ETL and ELT, Star Schema, Snowflake Schema, Data Warehousing, Data Validation, Data Governance

Programming and Automation: Python (ETL), REST APIs, JSON, Power Automate, Power Apps (Canvas Apps), Dataflows

Cloud and Tools: Azure Data Factory, Power BI Report Server, Advanced Excel (Power Pivot, Pivot Tables)

PROFESSIONAL EXPERIENCE

Power BI Developer | Gleuhr Wellness Pvt. Ltd. — Chandigarh **Aug 2025 – May 2026**

- Developed 5 executive Power BI dashboards with optimised DAX measures, achieving a 30% reduction in report load time and delivering near real-time KPI visibility to 200 business users across leadership and operations.
- Automated incremental-refresh pipelines to process 50,000 daily records via Python and REST APIs, eliminating 6 hours per week of manual data preparation.
- Administered Power BI Service end-to-end, including workspace governance, scheduled refreshes, gateways, RLS, and Power Automate alerts for refresh monitoring and issue notifications.
- Developed an automated source-to-report data validation framework that caught mismatches before publication, protecting the credibility of all leadership-facing dashboards.

Power BI Developer | Adglobal360 India Pvt. Ltd. — Gurugram **Apr 2024 – Jul 2025**

- Delivered 10 self-service Power BI dashboards on multi-source data, replacing static Excel workflows and giving 100 business users direct access to live, governed insights.
- Designed optimised data models using star schema, composite models, and DirectQuery to support responsive analytics over large, high-volume datasets.
- Built reusable DAX measure libraries and a standardised report theme, cutting new dashboard development time by 40% and ensuring consistency across teams.
- Tuned SQL ETL pipelines with indexing and query optimisation techniques, significantly reducing large workload execution times.

BI Consultant | Varahe Analytics Pvt. Ltd. — Noida **Jun 2023 – Apr 2024**

- Built reusable star-schema models and templated dashboard frameworks that accelerated delivery across multiple client engagements.
- Developed SQL stored procedures, indexing strategies, and validation logic that improved reporting accuracy and reduced recurring data quality issues.
- Led requirements gathering sessions with non-technical stakeholders and authored documentation for scalable handoff and long-term maintainability.

KEY PROJECTS

CRM Analytics Automation System

Power BI | SQL | Python | REST API | PostgreSQL

- Built an end to end CRM analytics pipeline integrating REST APIs with PostgreSQL to power daily sales and engagement KPIs for 50 dashboard users in Power BI.
- Modelled data in a star schema with optimised DAX measures, Row-Level Security, and scheduled refresh for daily validated reporting.
- Hardened the ingestion layer with full error handling, retry logic, and logging so failed API pulls were caught and re-attempted automatically without breaking the daily refresh.

EDUCATION

MBA, Marketing and Finance / Dr APJ Abdul Kalam Technical University

2023

BA, Sociology / J.R.N. Rajasthan Vidyapeeth University

2019

CERTIFICATIONS

Microsoft Power BI Data Analyst (PL-300) – Preparing
